FREESTANDING ELECTRIC STOVE

CLB20

The Club is a traditional freestanding electric stove fire featuring the unique Optiflame effect from Dimplex, along with a log fuel bed giving the comfort of a real fire.

It can be operated using the easy to use remote control or via the manual controls behind the door and the Club. It has a choice of 2 heat settings and the flame only effect provides the cosiness of a wood stove all year round without the hassle or environmental concerns of a real fire. During colder spells the thermostatic controls can set the fire to efficiently to maintain the desired room temperature by automatically switching on and off.

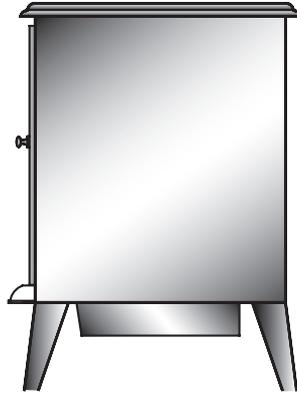

The club is a classic medium sized stove and is the ideal focal point for any space and its simple plug and go installation means that it can be placed anywhere near a plug socket offers incredible features you will love.
