Your furniture is assembled using a cam lock and dowel system. This system combines a quick and easy assembly with strength and a clean finish. Screw the cam dowel into the panel in the positions shown. Take care to ensure that the dowel is straight, and is inserted the full length of the threaded section.

Insert the cam lock into the face of the panel in the positions shown. Ensure that the cam arrow points towards the edge with the hole as shown; this allows the head of the cam dowel to locate properly in the cam lock.
